

Tirth Vadariya

Full Stack Developer

+91 6355390653 vadariyatirth231@gmail.com LinkedIn GitHub Portfolio

Professional Summary

Enthusiastic Full Stack Developer with hands-on experience in building responsive and scalable web applications using React.js, Node.js, Express.js, PostgreSQL, MongoDB, and Prisma ORM. Skilled in REST API development, database management, and modern frontend technologies. Passionate about solving real-world problems through technology, collaborating in team environments, and continuously learning new tools and frameworks.

Education

Secondary School Certificate (10 th)	2021
Higher Secondary Certificate (12 th)	2023
Bachelor of Computer Applications (BCA) Sardar Vallabhbhai Global University	2023 – 2026
Full Stack Development Program StackCode Training Institute	2025 – 2026

Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST API Development, Prisma ORM

Databases: PostgreSQL, MongoDB, MySQL

Tools & Platforms: Git, GitHub, VS Code, Postman, MongoDB Compass, Vercel

AI-Assisted Development Tools: Amazon Q, Cursor, Antigravity, Kiro

Projects

E-Auction System

- Designed and developed an online auction platform as a university project, enabling users to participate in real-time bidding activities.
- Created auction management workflows and user interaction modules to improve usability and engagement.
- Utilized GitHub for version control, collaboration, and project management.

StackCode LMS

- Contributed to the development of a Learning Management System during Hackathon-I organized by StackCode Training Institute.
- Implemented course management and student engagement features to enhance the learning experience.
- Demonstrated teamwork, rapid problem-solving, and agile development practices in a competitive environment.

Instagram Clone

- Built a responsive Instagram-inspired web application using React.js, JavaScript, and Tailwind CSS.
- Developed reusable UI components and optimized layouts for multiple screen sizes.
- Enhanced user experience through modern design principles and efficient frontend architecture.

Job Tracker Application

- Developed a full-stack job application tracking system using React.js, Node.js, Express.js, PostgreSQL, and Prisma ORM.
- Implemented features for managing job applications, including application status tracking, interview scheduling, and company management.
- Designed a responsive dashboard with search, filtering, pagination, and analytics for efficient job tracking.

Achievements

- Secured First Runner-Up position in Hackathon-I organized by StackCode Training Institute.
- Recognized for innovation, teamwork, and effective technical implementation during project development.
